News:

ORANGE hacked:
850.000 client records exfiltrated

No critical data?

What do you think?

« No critical data has been stolen » said Orange...
(passwords, email addresses, bank data)

But...

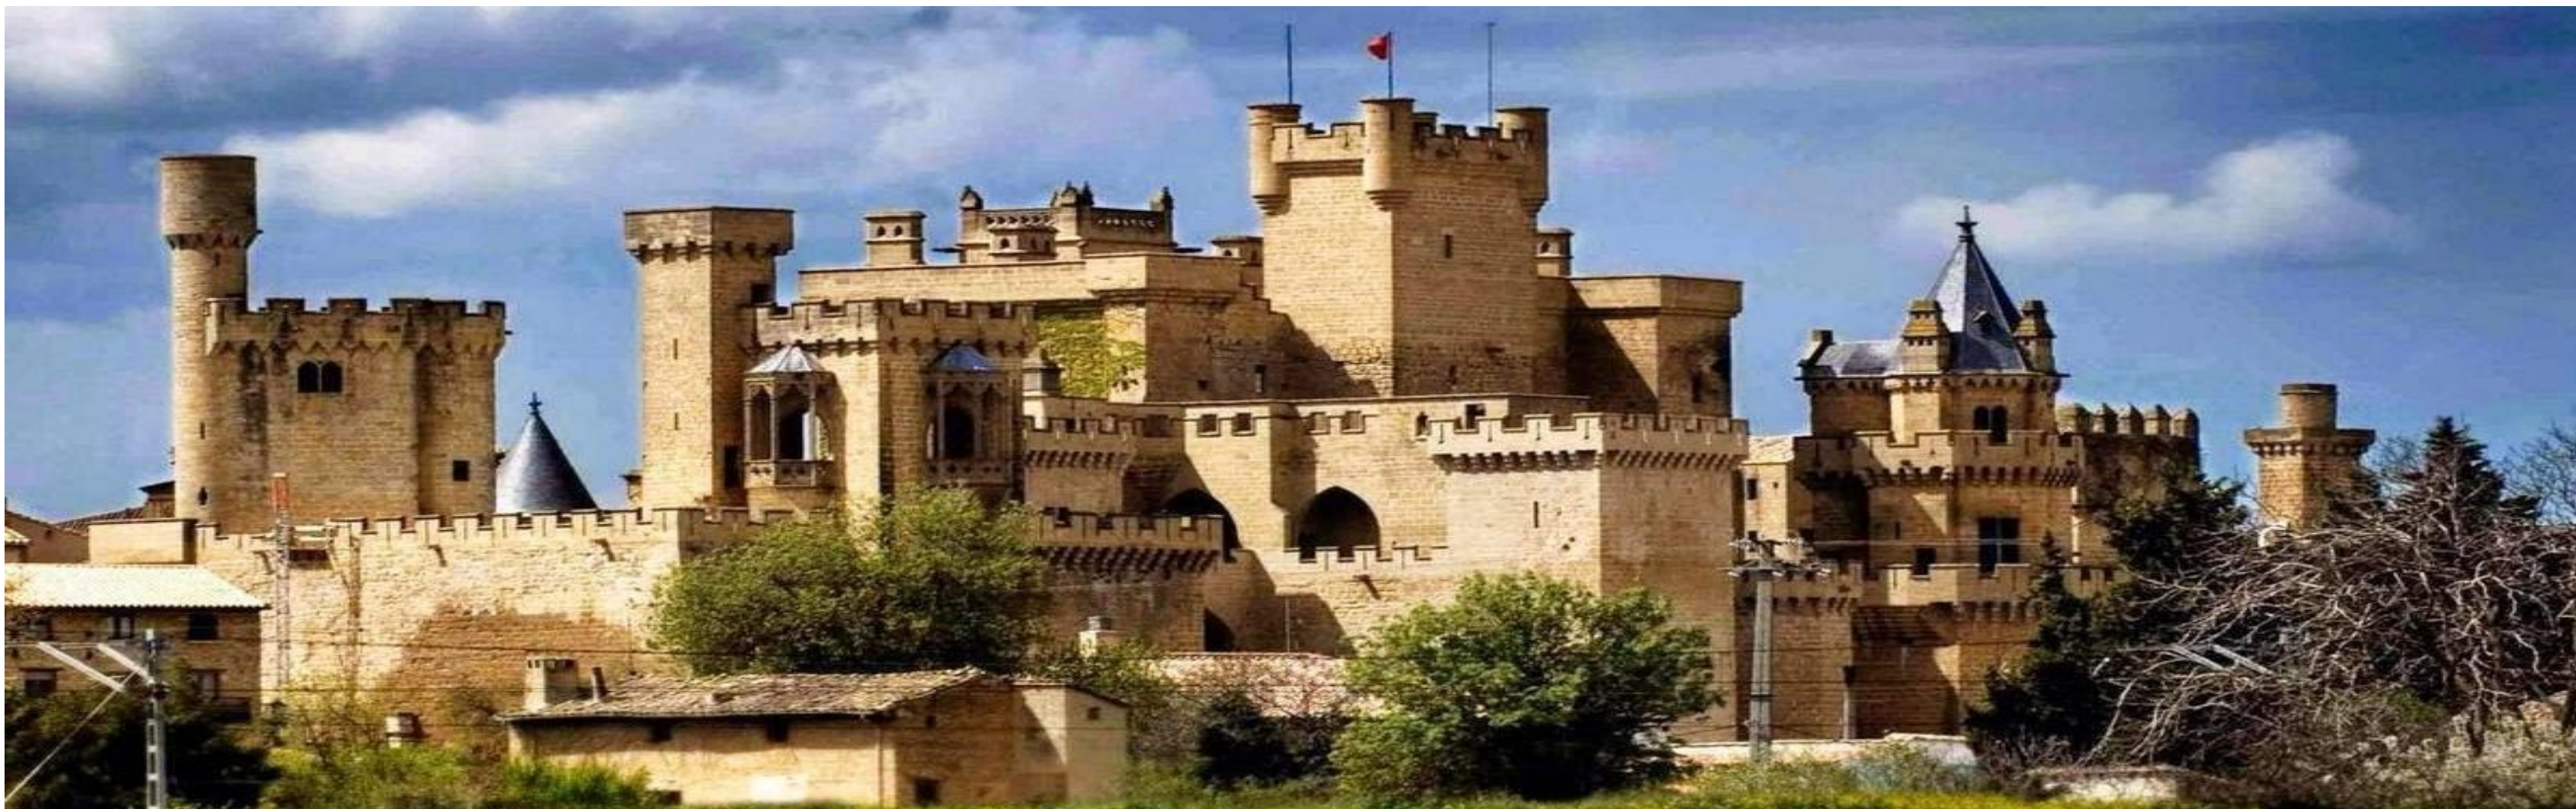

850.000 Names, Phone numbers, SIM card
numbers, PUK codes and Package details!

A good report or a good leverage?

The question is not "If", but "When"?...
What now?

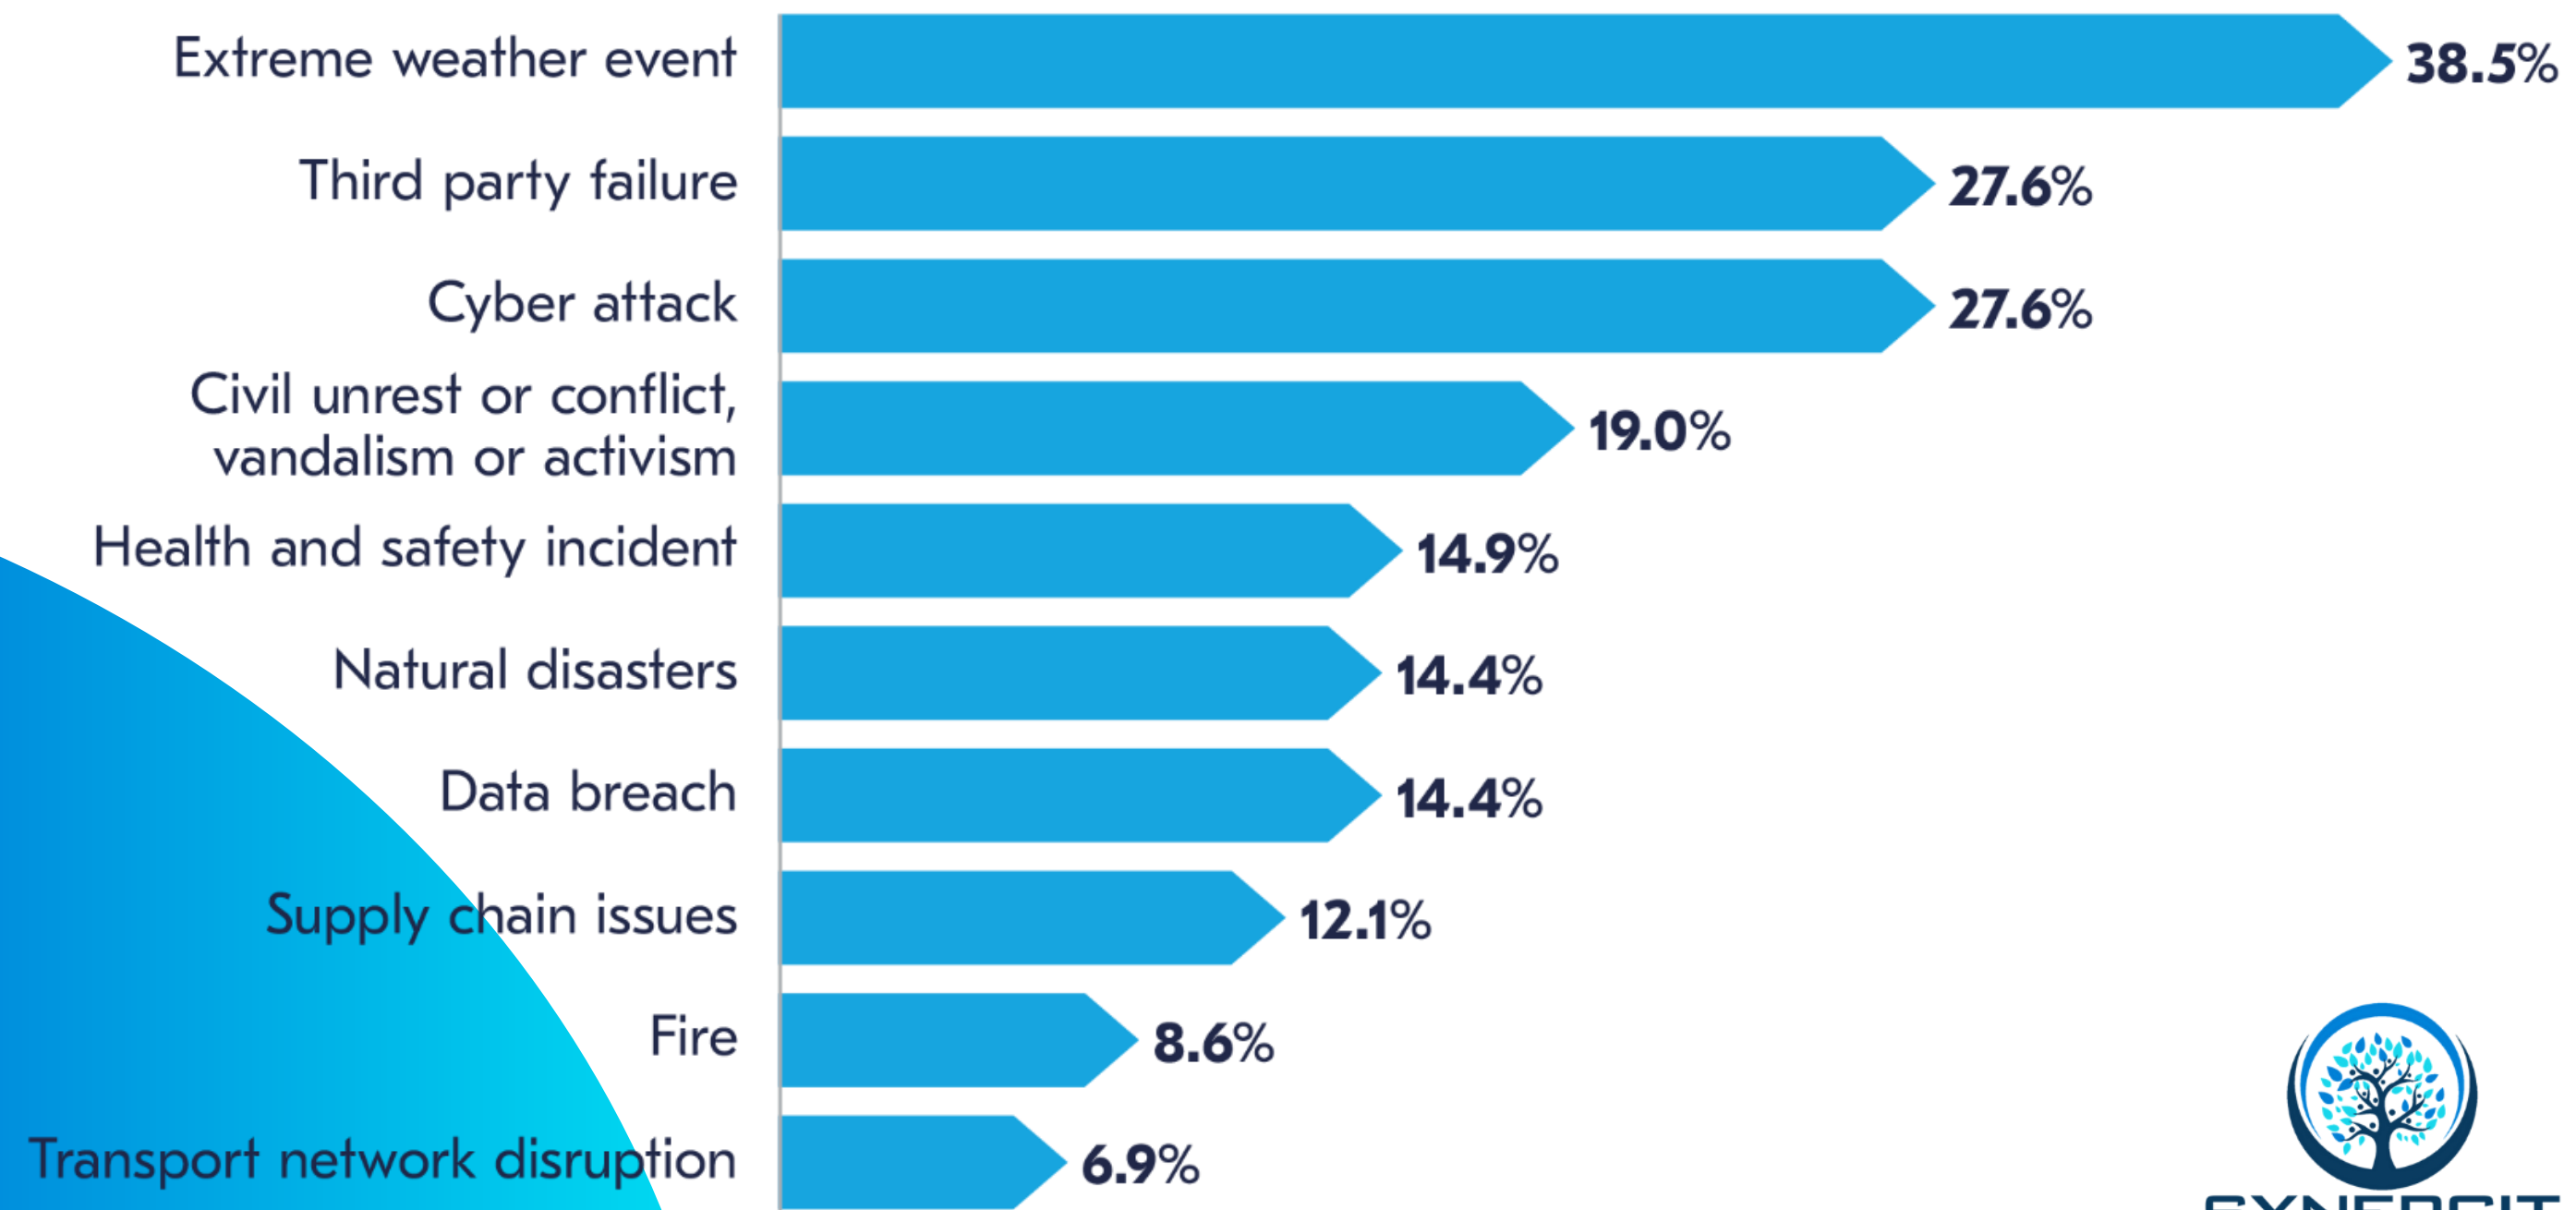

DPO's, CISO's & BCM together:

How to protect what data?

From Continuity to Resilience

Securing a Bright Future

Business Continuity

Business Continuity means recovering what already exists (same tools, methods, etc.).

Operational / Organisational Resilience

Can involve bouncing back using different tools, processes and objectives.
